COMPOSITE CABLES

**BELDEN HOMECHOICE "BANANA PEEL" COMPOSITE CABLE**

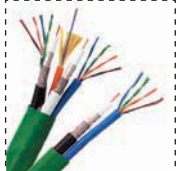

- Features a design that affixes the individual cables to a center spine-eliminating the need to strip off the outer jacket.
- The individual Data (Cat 5E 4 pair bonded, blue and green jackets), coaxial (RG-6, black and white jackets), and fiber cables (Orange jacket) are all instantly identifiable.
- Smaller OD than traditional composite cables - improving overall bend radius for faster and easier installations.
